The Quadrat Series is a line of wood lattice tables that explore the simple and elegant form of the grid as a three-dimensional object. Its distinctive design is in the lightweight yet strong wood construction of its open grid geometry. The Quadrat Cuboid 47 serves as a large-scale coffee table.

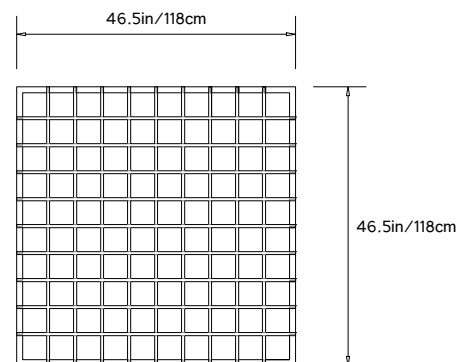

The Cube and Cuboids work together with a variety of discrete tabletop objects that plug directly into the Quadrat grid. These interchangeable tabletop pieces are offered in the form of a glass puddle, a mirror-polished brass plate, an intricately carved oak tray, and hand-thrown pottery pieces. Each tabletop piece is custom-designed by PELLE and made to order by local artists and artisans.
