

## LURE COLLECTION

**Product Name:**  
LURE SCONCE

**Description:**  
The Lure Sconce is a single fixture that can be showcased on its own or collected into a group installation. The Lure lights use paper flowers that are sculpted by hand in our studio. Each blossom's petals are individually shaped and each lure blossom is unique. The sconce can be installed in various orientations. The slender LED arm can also be positioned at any angle.
