**Product Descripton:**

The Fin Chair is a mahogany and blackened steel chair that features a broad “fin” as its central detail. The structural frame, seat and silhouette of the chair offer an unusual combination of elements, joining the austerity of a simple steel frame with the rich warmth of premium wood. The seat is made of solid mahogany that is polished and symmetrically joined, the grain of the wood drawing the eye towards the anchoring fin—crafted from matching mahogany. Juxtaposing this opulent material with a minimal frame, the Fin Chair brings singularity to a functional design.
