

DVN TABLE

Design Year:
2019

The DVN Table is crafted from a single material that is precision milled to achieve a perfect balance.

Alluding to traditional Japanese carpentry where complex joinery techniques are used to build structures without using nails or fasteners, each DVN Table is made from solid aluminum that is meticulously milled down to 1/1000 of an inch to create three curved supports that seamlessly connect with a circular tabletop. The surface is then hand-finished using a non-directional technique that amplifies the continuity of the design.

The DVN Table combines simplicity of material with a sophistication of craftsmanship to create a unified form.

Dimensions:

Diam 36in/91.5cm x H 16in/40.5cm
 Custom Sizes on request

Materials:

Solid Aluminum

Lead Time:

12-16 weeks

Made in:

New York, USA
