

# PELLE

Selected Works

PELLE was founded in 2011 by partners Jean and Oliver Pelle. Their studio practice integrates artistic exploration with architectural integrity to offer an original collection of hand produced, professionally refined lighting, furniture, and objects. PELLE's work combines the unique visions of its founders, interweaving an aesthetic of man-made craft with one of delicate, organic forms to create a multi-faceted collection of works united by a reverence for technical mastery and innovation.

Located in Brooklyn, the PELLE studio currently comprises a lighting fabrication studio, a research and prototyping studio, and a dedicated gallery to display finished pieces. The studio space is structured to support creative experimentation and active making, continually evolving in pursuit of new materials, methods, and ideas.

D 42-44in/106-112cm

H 84-86in/213-220cm

Satin Brass, LED

Jean and Oliver Pelle met while pursuing their Masters in Architecture at Yale University.

Jean was born in South Korea in 1976. The daughter of a professional sculptor, she grew up drawing and painting and often assisted in her father's sculpture studio. She earned her Bachelor of Art in Architecture from UC Berkeley in 1999 and went on to earn her Master of Architecture from Yale University in 2005.

Oliver was born in Germany in 1975. The son of a structural engineer, Oliver has been drawn to geometric principles and systemic structures. An admirer of Ludwig Mies Van Der Rohe, Oliver left Germany to study at the Illinois Institute of Technology in Chicago. He earned his Bachelor of Architecture with Highest Honors in 2000 and went on to earn his Master of Architecture from Yale University in 2004.
